

### As our Spirit Awakens

That's how it is ... as our Spirit awakens within our beings ... to willingly join us and participate along our life's adventure ... with eyes we have not looked thru before ... and it says to us, "Hello my friend. Let us continue this journey together as one."

For it is both the "who" you are today and your wonderful Soul full of wisdom and beauty that I have come to know ... and today appreciate the opportunity of saying to you, "Hello my friend."
